

RF-7800R-RC

Universal Remote Control System

GENERAL	

The RF-7800R-RC provides full remote control of Falcon II® and Falcon III® radios. The system supports legacy transmit and receive audio, data and field wire control as well as current fiber and Ethernet® technologies for extended ranges. All radio functions controlled by an L3Harris Keypad Display Unit can be controlled by the RF-7800R-RC, including ALE, frequency hopping and modem selections. The system supports a full range of data applications and maintains Engineering Order Wire intercom capabilities between remote and local operators. Modular by design, each of the RF-7800R-RC's two units can function as a Local Control Unit or Remote Control Unit.
