5.10 Notification of Changes

Regardless of who has design authority, Seller shall promptly notify Buyer in writing of intended changes of

This instruction includes the following changes:

- Changes in plant location
- Major changes in plant layout
- Major changes in major information management system
- New Enterprise Resource Planning (ERP) system
- Relevant Business System change
- Major change in Organization Management structure
- Major Suppliers (including subcontractors)
- Changes in key manufacturing processes

Manufacturing process changes require AP or ACSS approval depending on the product and process impacted, while all other changes only require notification. ACSS process changes need to be directed to ACSS representatives and vice versa for AP.

5.11 Seller With Design Authority

The Seller shall promptly notify the Buyer of any design or process changes that affect fit, form, function, quality, reliability, or safety with manufacture and delivery of this order.

5.12 Buyer Has Design Authority

component used by the Buyer to qualify the component at the existing drawing revision level, written authorization must be obtained from the Buyer. NO CHANGES ARE PERMITTED WITHOUT THIS AUTHORIZATION.

5.13 Drawing and Change Control

t applicable drawings, specifications, technical requirements, PO or SCP information and changes thereto will be available at the time and place of assure incorporation on the affected material and/or services at specified effectivity points. On Buyer-Buyer.

5.14 Procurement by the Seller

The Seller shall maintain a system to assure that Seller-procured materials and/or services conform to

ments, or assist in the resolution of quality

Assurance Representative.

5.31 Buyer Quality Control Representative

Buyer may, at its discretion, provide resident or itinerant quality assurance personnel whose function shall be to survey Seller operations, assist the Seller in the resolution of quality problems, and witness at any stage (subject to proprietary considerations) the manufacture, processing, test, and inspection of items being manufactured for Buyer. Copies of applicable specifications and documents shall be

5.32 Seller Assistance

In the event that requirements are not completely clear, or where special assistance is needed, Buyer will provide qualified personnel to consult with the Seller. Requests for assistance shall be made via or services being procure

5.33 Government Source Inspection

responsibility of the Seller to notify the Government inspector and provide him with pertinent specifications and any necessary facilities and assistance.

5.34 Federal Aviation Administration Surveillance

Materials and/or components supplied under the terms of this PO may be utilized in equipment that has been or will be subject to Federal Aviation Administration (FAA) type certification or Technical Standard Order Authorization/Parts Manufacturer Approval. Your facility and quality system are subject to surveillance by authorized representatives of the FAA. The Seller shall provide all reasonable facilities and assistance to the authorized FAA representatives, upon request.

5.35 DOT/FAA Drug and Alcohol Testing

Any work performed for AP / ACSS Repair and Overhaul is considered safety sensitive work. The Seller is required to either maintain their own Antidrug & Alcohol Misuse Prevention Program or be a part of the AP / ACSS Repair and Overhaul program. As part of this program, certain employees of the Seller, and employees of subcontractors at any tier below you, will be tested under an FAA-regulated program. If the Seller chooses to maintain their own program, it must be in accordance with the regulations set forth in: Department of Transportation (DOT) Title 49 Part 40 and Federal Aviation Administration (FAA) Title 14 Part 120. representatives of the DOT or FAA. The Seller shall provide all reasonable facilities and assistance to the authorized DOT/FAA representatives, upon request. You agree to hold harmless AP / ACSS and AP / ACSS Repair and Overhaul for noncompliance of DOT/FAA regulations by yourself or by a subcontractor at a lower tier. For further information, reference the DOT Office of Drug & Alcohol Policy & Compliance website at: <http://www.dot.gov/ost/dapc>.

NOTE: This general requirement does not apply to calibration suppliers.
