

Procurement Policy Note (PPN) 06/21 Carbon Reduction Plan

Supplier Name: L3Harris Technologies UK Limited

Publication Date: April 4, 2024

Commitment to achieving Net Zero

L3Harris Technologies, Inc. is committed to speed, innovation, and flawless execution; this is matched only by a clear dedication to minimizing the impact our business operations may have on the environment. At L3Harris Technologies UK Limited, every one of our locations is striving to do their part in contributing towards the success of L3Harris Technologies, Inc. corporate environmental sustainability goals by 2026 which include:

- A 30% reduction of greenhouse gas (GHG) emissions over a baseline year of 2019;
 - o This target was developed using the tool created by the Science Based Targets initiative (SBTi) and meets the science-based level of ambition criteria required to limit the global temperature increase to 1.5°C, using the absolute contraction approach.
 - o The target has not yet been verified by the SBTi; L3Harris Technologies is working towards SBTi verification.

A 20% reduction of water use over a baseline year of 2019; and

At least a 75% solid waste diversion rate from landfill.

Further, L3Harris Technologies UK Limited is committed to achieving Net Zero greenhouse gas (GHG) emission by at least 2050 for business operations within the UK.
