FALCON® IV RF.194.19 TJ004 Tc 0002 T
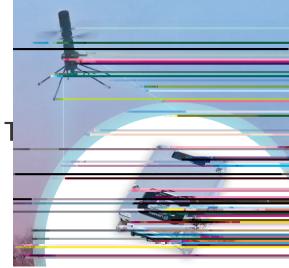

> Maintain network integrity in congested and contested environments with resilient Wraith™ waveform

> Easy-to use, integrate, and upgrade using provided programming tools and commercial connectors

> Interoperable with fielded L3Harris Falcon IV® radios; allows for UAV control through fielded radios

> Software Defined Radio capable of being field-upgraded and storing multiple waveforms

> Designed to easily integrate into a wide variety of Group 1+ UAV platforms

RESILIENT RANGE EXTENSION FOR NETWORK INTEGRITY
